

## **FACTORY**

3 days to discover the projects of Belgian artists and companies  
6 performances – 9 phases of work – 4 project presentations

The Festival de Liège and La Chaufferie-Acte1 present the 5th edition of FACTORY, a festival dedicated to emerging artists and companies.

Remaining true to the principles of “factory” and “lab”, FACTORY proposes three days to discover various projects at various stages of development: some have reached completion, others have reached a key point in their creation, whilst others invite to discover the first staging of an artistic quest to garner input and nourish the realms of imagination required for creation.
