

PROMETHEUS / 25 YEARS OF INDEPENDENCE

In 2016 Georgia celebrated 25th anniversary of its independence.

Eight individuals will disclose the history of their homeland, Georgia, to which they are EQUAL IN AGE.

Their narratives give birth to a personal mythology - here, every person is a hero and every hero is bound like Prometheus.

The biography of a single person can serve as a concentrated history of entire country. Where does the border between a biography and history blur?

Prometheus / 25 Years of Independence was selected as the opening show of Autorentheatertage 2018, at Deutsches Theater (Berlin).

"...Outstanding Ensemble under masterful direction and ingenious dramaturgy."
